Independent Auditor's Report

To the Board of Directors
Middle Cities Risk Management Trust

We have audited the accompanying balance sheet of Middle Cities Risk Management Trust as of June 30, 2006 and 2005 and the related statements of revenue, expenses, and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Middle Cities Risk Management Trust at June 30, 2006 and 2005 and the results of its operations and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis (identified in the table of contents) is not a required part of the financial statements but is supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Middle Cities Risk Management Trust

Management's Discussion and Analysis

This section of Middle Cities Risk Management Trust's (the "Trust") annual financial report presents our discussion and analysis of the Trust's financial performance during the year ended June 30, 2006. Please read it in conjunction with the Trust's financial statements, which immediately follow this section.

Using this Annual Report

The Trust is a public entity self-insurance pool that provides property and liability coverages to its participating members. Membership is open to all school districts, selective district libraries, community colleges, and public school academies in the state of Michigan. This annual report consists of a series of financial statements. The statement of net assets and the statement of revenue, expenses, and changes in net assets provide information about the financial activities of the Trust. This is followed by the statement of cash flows, which presents detailed information about the changes in the Trust's cash position during the year.

Financial Overview

This annual report consists of three parts - management's discussion and analysis (this section), the basic financial statements, and required supplemental information.

The Trust is considered a special purpose government engaged solely in business-type activities. The basic financial statements, which follow this section, provide both long-term and short-term information about the Trust's financial status. The Trust uses the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. These statements reflect only the risk carried by the Trust, which also includes any potential unrecoverable reinsurance claims. The three basic financial statements presented are as follows:

- **Statement of Net Assets** - This statement presents information reflecting the Trust's assets, liabilities, and net assets.
- **Statement of Revenues, Expenses, and Changes in Net Assets** - This statement reflects the operating and nonoperating revenues and expenses for the previous two fiscal years. Operating revenues consist primarily of member contributions with the major sources of operating expenses being claims and claims adjustment expense, general and administrative expenses, and reinsurance costs. Nonoperating revenues consist primarily of investment income.
- **Statement of Cash Flows** - This statement is presented on the direct method of reporting, and reflects cash flows from operating activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash for the fiscal year.

Middle Cities Risk Management Trust

Management's Discussion and Analysis (Continued)

Condensed Financial Information

The statements report the Trust's net assets and how they have changed. Net assets - the difference between the Trust's assets and liabilities - is one way to measure the Trust's financial health, or position. Over time, increases and decreases in the Trust's net assets are an indicator of whether its financial health is improving or deteriorating, respectively. Summarized financial information follows:

	June 30		
	2006	2005	2004
Total Assets			
Current assets	\$ 19,070,690	\$ 17,607,033	\$ 16,462,583

Distribution to members	<u>1,454,862</u>	<u>1,373,889</u>	<u>1,167,978</u>
Increase in Net Assets	<u>\$ 1,649,658</u>	<u>\$ 1,399,758</u>	<u>\$ 399,789</u>

Middle Cities Risk Management Trust

Management's Discussion and Analysis (Continued)

In addition to net assets, when assessing the overall health of the Trust, the reader needs to consider other nonfinancial factors such as the legal climate in the State, the general state of the financial markets, and the level of risk prevention undertaken by the Trust and its members.

The Trust cannot control the first two factors. However, since its inception, the Trust has been a leader in implementing aggressive risk prevention programs. It provides extensive training to its members in various areas of school district operations. It makes use of several advisory committees comprised of member employees holding job responsibilities related to the activities of the committee.

Condensed Comparative Financial Highlights

- Overall, the Trust's net assets increased by \$1,649,658, from \$11,444,457 to \$13,094,115 due to an increase in member contributions discussed below as well as a decrease in general operating expenses.
- Total revenue increased \$11,327,073 to \$11,411,499. Member contributions for insurance coverage premiums increased by \$89,149 while investment income, including the change in the fair value of investments, decreased by \$4,723. In addition, the Trust realized a loss of \$29,108 from its investment in a real estate joint venture.
- Risk management, underwriting, and other administrative expenses increased by \$11,736, from \$1,021,092, to \$1,032,828, due to increase in service fees which was partially offset by an overall decrease in general operating expenses.
- Incurred claims and claims adjustment expenses were \$3,413,587 and \$3,410,547 for the years ended June 30, 2006 and 2005, respectively.
- Outside reinsurance costs decreased by \$290,331, from \$4,121,787 to \$3,831,456.
- Reserves (reported net of estimated reinsurance recoveries), both reported and incurred but not reported, decreased by \$490,301.
- Investment income of \$712,868 was earned this year compared to \$717,591 in the prior year. This decrease was a result of market interest rates during the current year.

Middle Cities Risk Management Trust

Management's Discussion and Analysis (Continued)

Cash and Cash Equivalents and Investments

Cash and cash equivalents and investments comprise the most significant numbers in the asset section of the Trust's statement of net assets.

Accordingly, the board of directors has established investment policies. The fundamental investment objectives are:

1. To maintain prudent credit standards for all investments
2. To establish a strong foundation of investment positioned to perform well under current and anticipated future market conditions
3. To set forth a disciplined buy/sell process for every security in the IMP portfolio
4. To maximize return on cash assets while minimizing risks to principal and interest and to ensure that liquidity funds are available to respond to anticipated and unanticipated cash flow needs
5. To minimize concerns for safety of cash and investments

Investment guidelines for U.S. equities provide for investing in a broadly diversified portfolio of U.S. dollar dominated debt securities issued by the U.S. government, agencies, states, localities, and U.S. domiciled companies. All debt securities must have a quality rating of BAA/BBB or above. The overall portfolio quality rating should be A+ or above.

Investment guidelines for cash and cash equivalents provide that managers using cash and cash equivalents in their portfolio are expected to adhere to the American Banking Association investment standards on security type, quality, and maturity for short-term investment funds (STIF), except for money market funds.

Currently, all investments of the Trust are professionally managed and invested consistent with the safeguards and diversity which aims to, at a minimum, preserve overall portfolio principal. Investments are held in trust by Comerica Bank. Asset Allocation Management acts as the investment portfolio manager.

Reserves for Unpaid Claims

The Trust's most significant numbers in the liability section of the statement of net assets are the reserves for reported and incurred but not reported claims and claim adjustment expenses. Tillinghast, a Towers Perrin Company, conducts an independent actuarial analysis to determine the adequacy and reasonableness of such reserves.

Middle Cities Risk Management Trust

Management's Discussion and Analysis (Continued)

Real Estate Investment Joint Venture

Earlier in 2003-2004, the board of the Middle Cities Risk Management Trust entered into a joint venture with its parent, Middle Cities Education Association, and an unaffiliated third party, the North Central Association/Commission on Accreditation and School Improvement, for the purpose of purchasing land and developing/constructing joint office facilities. The Trust had, in prior years, set aside approximately \$920,000 for such new office facilities. A total of \$200,000 of those previously set-aside funds had been approved as a loan to the parent for its share of the land purchase. The Trust contributed an additional \$270,000 to the joint venture project in 2005-2006. The building was completed in 2005-2006 and is now occupied by the entities. The Trust's share of the joint venture is \$832,078.

Respectfully yours,

Middle Cities Risk Management Trust

Chief Operating Officer

Integral Part of this Statement.

Middle Cities Risk Management Trust

Notes to Financial Statements June 30, 2006 and 2005

Note 1 - Nature of Entity and Significant Accounting Policies

Middle Cities Risk Management Trust (the "Trust") was established July 1, 1987 under the laws of the State of Michigan as a governmental group risk retention trust. Organizational activity relating to the formation of the Trust, including the selection of the board of directors, began in September 1986 under the sponsorship of Middle Cities Education Association, the founding association. The Trust provides a single multiperil contract under which the members are covered for various types of risk including: property all risk; general and automobile liability; crime and boiler machinery; and loss and physical damage to automobiles, mobile equipment, EDP software, fine arts, and other miscellaneous property. Membership in the Trust is open to all school districts, selective district libraries, community colleges, and public school academies in the state of Michigan, of which there are 37 participating in the Trust. The basic financial statements as presented herein are an accumulation of the financial information from all open policy years.

The program's general objectives are to manage the Trust, provide risk management that consists of compensating members for losses, costs, and expenses related to the stated coverages, and utilize the funds contributed by members to defend any member of the pool against stated liability or loss. Membership in the Trust is considered after a formal request supported by a resolution from the board of education of the applying school district. Any member joining the Trust is required to remain a member for a minimum of one full year. A member may withdraw from the Trust by giving written notice at least 180 days prior to the end of that member's current term of membership.

Trust underwriting and rate-setting policies are established after consultation with excess insurance underwriters and actuaries. Members are given 30 days' notice to make annual contributions to the Trust. The annual contributions are based on a final budget approved by the board of directors.

The Trust uses the accrual method of accounting. Contributions for premiums received from members, which are calculated by the Trust, are recorded as revenue. Claim losses, along with excess insurance premiums, service fees, and administrative costs, are recorded as expenses. The estimated total cost of claim losses (including future claim adjustment expenses) is accrued at present value based on the estimate of claims that ultimately will be filed for an insurance period. It is anticipated that to the extent the group's contributions finally are deemed to exceed claim losses and other costs, the excess amount will be refunded at some time in the future. If necessary, funding deficits in individual policy years will be recovered through additional member contributions assessed to members of that policy year. A member's contributions in excess of his or her claim losses and his or her share of other costs and expenses, including, under certain circumstances, a share of group claim losses, will be refunded upon board approval.

Middle Cities Risk Management Trust

Notes to Financial Statements June 30, 2006 and 2005

Note 1 - Nature of Entity and Significant Accounting Policies (Continued)

The Trust distinguishes operating revenues and expenses from nonoperating items. Operating revenue and expenses generally result from providing services in connection with the Trust's principal ongoing operations. The principal operating revenue relates to member's premiums and investment income. Operating expenses include the cost of services and administrative expenses. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Cash Equivalents - The Trust considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

Investments - Investments consist of U.S. government securities with maturities greater than three months and are recorded at fair value. Unrealized gains and losses are credited or charged to income. The Trust has foreign bonds recorded at fair market value of \$129,271 at June 30, 2006. The Trust had no foreign investments at June 30, 2005.

Accounts Receivable - Trade accounts receivable are stated at net invoice amounts. Collectibility of balances is reviewed periodically. Any amounts deemed to be uncollectible are written off at that time. No allowance for bad debts is recorded because management considers all accounts receivable to be collectible.

Property - Property is recorded at cost, less accumulated depreciation. Depreciation is calculated on the straight-line method over the estimated useful lives of depreciable assets. Costs of maintenance and repairs are charged to expense when incurred.

Federal Income Tax Status - The Trust has received a determination from the Internal Revenue Service that its income is exempt from taxation under Internal Revenue Code Section 115. Accordingly, no provision has been made for taxes on income.

Contribution Deficiency - Anticipated investment income is considered in determining if a contribution deficiency exists.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates related to allowances for unsettled claims and claims incurred but not reported are described in Note 4.

Middle Cities Risk Management Trust

Notes to Financial Statements June 30, 2006 and 2005

Note 2 - Deposits and Investments

The Trust's investment policy authorizes the Trust to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The Trust investments are in accordance with the State Insurance Code.

Trust investments are held in the Trust's name. The Trust has designated Comerica Bank for the deposit of its investments.

The Trust's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the Trust's deposits may not be returned to it. The Trust does not have a deposit policy for custodial credit risk of bank deposits. At year end, the Trust's deposit balance of \$1,106,706 had \$991,595 of bank deposits (checking and savings accounts) that were uninsured and uncollateralized. The Trust believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Trust evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Trust's investment policy does not restrict investment maturities. The Trust's policy minimizes interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market and limiting the average maturity in accordance with the Trust's cash requirements.

Credit Risk - The State Insurance Code does not limit investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Trust's investment policy does not further limit its investment choices.

Notes to Financial Statements June 30, 2006 and 2005

Note 2 - Deposits and Investments (Continued)

Concentration of Credit Risk - The Trust places no limit on the amount it may invest in any one issuer. There were no investments that individually exceed 5 percent of the Trust's total investments at June 30, 2006.

Foreign Currency Risk - Foreign currency risk is the risk that an investment denominated in a currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. The Trust's investment policy does not address foreign currency risk. The Trust's investments in foreign bonds, \$129,271 at June 30, 2006, are subject to foreign currency risk. The Trust had no foreign investments at June 30, 2005.

Note 3 - Property

Cost of property and depreciable lives are summarized as follows:

	2006	2005	Depreciable Life - Years
Buildings	\$ 324,218	\$ 324,218	31.5
Building improvements	21,370	21,370	10-15
Total cost	345,588	345,588	
Less accumulated depreciation	135,972	124,640	
Net carrying amount	\$ 209,616	\$ 220,948	

There were no additions or deletions of fixed assets in 2006 or 2005. Total depreciation expense was \$11,332 for both 2006 and 2005.

Middle Cities Risk Management Trust

Notes to Financial Statements June 30, 2006 and 2005

Note 4 - Allowances for Unsettled Claims and Claims Incurred but Not Reported

As discussed in Note 1, the Trust establishes a liability for both reported and unreported claims that includes estimates of both future losses and related claim adjustment expenses.

At June 30, 2006 and 2005, the estimates are as follows:

	2006	2005
Claims filed at June 30 that remain unsettled as of that date (estimated by insurance service provider)	\$ 2,618,869	\$ 4,524,282
Estimate of claims incurred prior to June 30, but not reported as of that date, that are expected to be filed in the future (based on the 90th percentile of expected losses)	4,627,107	4,171,823
Less portion to be paid by excess insurance carrier	(241,705)	(1,190,799)
Net undiscounted reserves	7,004,271	7,505,306
Less effect of discount	(89,525)	(100,259)
Total	<u>\$ 6,914,746</u>	<u>\$ 7,405,047</u>

For the years ended June 30, 2006 and 2005, the estimates of the claims incurred but not reported as of those dates were actuarially determined and are based on the estimated ultimate cost of settling the claims, including the effects of inflation and other societal and economic factors. The reserves for unsettled claims and claims incurred but not reported are presented at present value using a discount rate of 1 percent for 2006 and 2005 and a 90 percent contingency margin confidence level. Although management believes that the provision for unpaid claims is adequate, no assurance can be given that the ultimate settlement of these liabilities may not be greater or less than such estimates. Any future adjustments to these amounts will affect the reported results of future periods.

Middle Cities Risk Management Trust

Notes to Financial Statements June 30, 2006 and 2005

Note 4 - Allowances for Unsettled Claims and Claims Incurred but Not Reported (Continued)

The following table represents changes in the unpaid claims for the Trust for the years ended June 30, 2006 and 2005:

	2006	2005
Unpaid claims and claims adjustment expenses - Beginning of fiscal year	\$ 7,405,047	\$ 6,242,098
Incurred claims and claims adjustment expenses:		
Provisions for insured events of the current fiscal year	4,252,833	4,424,359
Change in provision for insured events of prior fiscal years	(1,788,340)	(1,535,401)
Total incurred claims and claims adjustment expenses	2,464,493	2,888,958
Payments:		
Claims and claims adjustment expenses attributable to insured events of the current fiscal year	944,996	1,166,212
Claims and claims adjustment expenses attributable to insured events of prior fiscal years	2,958,892	1,081,386
Total payments	3,903,888	2,247,598
Increase in amount to be paid by excess insurance carrier	949,094	521,589
Unpaid claims and claims adjustment expenses - End of fiscal year	\$ 6,914,746	\$ 7,405,047

Incurred claims relating to prior years decreased during 2006 and 2005 due to claims settling for amounts different from those originally estimated.

Middle Cities Risk Management Trust

Notes to Financial Statements June 30, 2006 and 2005

Note 5 - Insurance Coverage

The Trust has acquired excess liability insurance coverage for both specific claims and aggregate claims paid by the Trust. The specific insurance policy will cover payments for any specific claims in excess of the amounts shown below, up to the maximum coverage shown below. Under the aggregate policy, the insurance carrier will pay for all claims paid in excess of the loss fund as shown below. Upon exhaustion of the loss fund, the excess insurance carrier becomes the primary insurer to the extent of the coverage provided in the contract as specified below:

Accident Date by Insurance Period	Deductible	Specific Occurrence			Aggregate Reinsurance	
		In Excess of	Maximum Coverage		Loss Fund	Maximum Coverage
Policy year 18:						
General and auto liability	\$ -	\$ 600,000	\$ 5,000,000	***	*	Statutory
Damage to insured's property	-	600,000	5,000,000		*	Statutory
Damage to insured's mobile equipment, EDP, software, and fine arts	1,000	500,000	600,000,000		*	Statutory
Employee dishonesty, internal and external robbery, and forgery	1,000	500,000	-		*	**
Boiler and machinery	1,000	1,000	50,000,000		*	**
Policy year 19:						
General and auto liability	-	600,000	5,000,000	***	*	Statutory
Damage to insured's property	-	600,000	5,000,000		*	Statutory
Damage to insured's mobile equipment, EDP, software, and fine arts	1,000	500,000	600,000,000		*	Statutory
Employee dishonesty, internal and external robbery, and forgery	1,000	500,000	-		*	**
Boiler and machinery	1,000	1,000	50,000,000		*	**

Middle Cities Risk Management Trust

Notes to Financial Statements June 30, 2006 and 2005

Note 5 - Insurance Coverage (Continued)

*The maximum exposure to the Trust for any combination of the above types of claims is as follows:

Years Ended	
June 30	Amount
2006	\$ 5,400,000
2005	5,100,000
2004	5,040,000
2003	4,000,000
2002	2,414,650
2001	2,400,000
2000	2,265,409
1999	2,184,383
1998	2,114,000
1997	2,114,000
1996	2,262,000
1995	2,230,000
1994	2,231,500
1993	2,341,167
1992	2,400,000
1991	2,925,000
1990	2,905,000
1989	3,000,000
1988	3,250,000

** Liability reverts back to the school district after the specific limit is reached.

*** Certain school districts have purchased additional coverage for general and auto liability.

Note 6 - Related Party Transactions

Middle Cities Education Association, an affiliated organization, performs various administrative services and pays certain expenses on behalf of the Trust. Expenses incurred by the Trust for these services totaled approximately \$420,000 and \$417,000 for the years ended June 30, 2006 and 2005, respectively. Included in these amounts are \$209,897 and \$221,645 of management fees for the years ended June 30, 2006 and 2005, respectively. The Trust had funds payable to the affiliated organization totaling \$80,475 and \$21,770 at June 30, 2006 and 2005, respectively.

Middle Cities Risk Management Trust

Notes to Financial Statements June 30, 2006 and 2005

Note 6 - Related Party Transactions (Continued)

Note Receivable - The Trust has a note receivable from the affiliated organization, the balance of which is \$778,757 and \$791,537 at June 30, 2006 and 2005, respectively. Payments of \$4,142, including interest of 4.7 percent, are due monthly through December 2009, at which time any unpaid principal and interest is due in full. The annual payments are as follows:

2007	\$ 13,394
2008	14,038
2009	14,712
2010	<u>736,613</u>
Total	<u>\$ 778,757</u>

Middle Cities Workers' Compensation Fund, an affiliated organization, reimburses the Trust for certain administrative costs. The total amount of expenses incurred was approximately \$56,000 and \$70,800 for the years ended June 30, 2006 and 2005, respectively. Affiliate receivables at June 30, 2006 and 2005 totaled \$23,362 and \$29,554, respectively.

Note 7 - Contingencies

Under the current service contract with the claims administrator, additional fees, which are based on the number of claims filed, could be assessed. Management's best estimate of additional fees to be charged is \$21,742 and \$4,552 at June 30, 2006 and 2005, respectively. These amounts are recorded in the financial statements.

Note 8 - Joint Venture

In January 2004, the Trust entered into a joint venture with Middle Cities Education Association (MCEA), a related party, and The North Central Association/Commission on Accreditation and School Improvement (NCACASI) for the purpose of developing joint office facilities within the greater Lansing, Michigan geographical area. Each member of the joint venture has initially contributed \$200,000 in exchange for a one-third interest in the venture. In 2006 and 2005, the Trust contributed an additional \$270,639 and \$375,082, respectively, to the joint venture. Each member will continue to contribute additional monies as the project develops. Loss from the joint venture was \$29,108 and \$0 in 2006 and 2005, respectively.

Middle Cities Risk Management Trust

Notes to Financial Statements June 30, 2006 and 2005

Note 9 - Uses of Net Assets

The Trust has set aside equity for the cost of its building, which is included in unrestricted members' equity, in the amount of \$11,579 and \$282,218 as of June 30, 2006 and 2005, respectively. The Trust has set aside additional equity in the amount of \$0 and \$945,507 for the years ended June 30, 2006 and 2005, respectively. These net assets by fund year are as follows at June 30, 2006:

	1987/88	1988/89	1989/90	1990/91	1991/92	1992/93	1993/94	1994/95	1995/96	Total
Designated net assets - July 1, 2004	\$ 230,313	\$ 21,000	\$ 22,794	\$ 65,844	\$ 36,646	\$ 90,571	\$ 27,678	\$ 15,667	\$ -	\$ 510,513
Additional designated net assets	36,680	3,340	3,620	10,480	66,561	86,525	252,667	315,249	170,385	945,507
Contribution to joint venture (Note 8)	(68,790)	(6,264)	(6,789)	(19,654)	(26,593)	(45,610)	(72,203)	(85,256)	(43,923)	(375,082)
Loan to related party (Note 6)	(146,485)	(13,339)	(14,457)	(41,853)	(56,629)	(97,124)	(153,754)	(181,549)	(93,530)	(798,720)
Designated net assets - July 1, 2005	51,718	4,737	5,168	14,817	19,985	34,362	54,388	64,111	32,932	282,218
Contribution to joint venture (Note 8)	(49,608)	(4,547)	(4,953)	(14,209)	(19,161)	(32,964)	(52,152)	(61,489)	(31,556)	(270,639)
Designated net assets - June 30, 2006	\$ 2,110	\$ 190	\$ 215	\$ 608	\$ 824	\$ 1,398	\$ 2,236	\$ 2,622	\$ 1,376	\$ 11,579

To the Board of Directors
Middle Cities Risk Management Trust

We have audited the financial statements of Middle Cities Risk Management Trust for the years ended June 30, 2006 and 2005. Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information on pages 25-30 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. Such information has been subjected to the procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Middle Cities Risk Management Trust

Required Supplementary Information Schedule of Claims Information for All Lines of Coverages

Claims Development Information

The table on page 26 illustrates how the Trust's earned revenue (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Trust as of the end of each of the last 10 years. The rows of the table are defined as follows:

- (1) This line shows the total of each fiscal year's gross earned contribution revenue and investment revenue, contribution revenue ceded to reinsurers, and net earned contribution revenue and reported investment revenue.
- (2) This line shows each fiscal year's other operating costs of the Trust, including overhead and claims expense not allocable to individual claims.
- (3) This line shows the Trust's gross incurred claims and allocated claim adjustment expenses, claims assumed by reinsurers, and net incurred claims and allocated adjustment expenses (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year).
- (4) This section of 10 rows shows the cumulative amounts paid as of the end of successive years for each policy year.
- (5) This line shows the latest re-estimated amount of claims assumed by reinsurers as of the end of the current year for each accident year.
- (6) This section of 10 rows shows how each policy year's net incurred claims increased or decreased as of the end of successive years. This annual re-estimation results from new information received on known claims, re-evaluation of existing information on known claims, as well as emergence of new claims not previously known.
- (7) This line compares the latest re-estimated net incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of claims cost is greater or less than originally thought.

As data for individual policy years matures, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. The columns of the table show data for successive policy years. The computations include discounting for present value and a 90 percent confidence level for the contingency margin. A part of the annual change in estimated claims will be an increase attributable to accretion in the present value computation. That amount is not shown separately.
